EDUCATION

Saveetha School of Engineering
Bachelor of Engineering in Computer Science and Engineering

CGPA: 9.06 / 10
Expected 2028

SKILLS

Languages	Java, C++, C, JavaScript
Web	HTML, CSS, JavaScript
Backend	Java; Spring Boot and REST APIs — currently learning
Databases	MySQL, SQLite
Data Structures	Arrays, Strings, 2D Arrays, Linked Lists, Stack, Queue, Hash Table, Priority Queue
Tools	Git, GitHub, VS Code, Selenium

PROJECTS

SkillAI — AI-Powered Adaptive Skill Development Platform

- In-development platform designed to create personalized learning plans based on a user's goal, available study time, skill level, and progress. Planned features include adaptive daily tasks, weak-area tracking, analytics, rewards, streaks, and AI-assisted recommendations. Technology direction: Java, Spring Boot, React, database, AI integration.

PrintEase — Data Structure-Based Campus Printing System

- Campus printing management system using data structures to organize print requests, prioritization, history, and undo operations. Uses Queue for FCFS requests, Priority Queue for priority handling, Hash Table for lookup, Linked List for history, and Stack for undo. Includes PDF/text processing and payment/verification workflow. Technology: C++, HTML, CSS, JavaScript, PDF.js, Tesseract, LocalStorage.

VStudy Course Monitor — Automated Academic Monitoring System

- Automation project using Selenium to monitor course information from the VStudy platform. Collects academic information, stores monitoring results in SQLite, detects relevant changes, and sends Telegram notifications. Technology: Python, Selenium, SQLite, Telegram Bot API.

DATA STRUCTURES & PROBLEM SOLVING

Practicing DSA with emphasis on brute-force versus optimized approaches, time and space complexity, and implementation fundamentals. Practice areas include arrays, strings, matrix operations, searching, sorting, linked lists, stacks, queues, hashing, and common interview-style problems.

CURRENT LEARNING

Java programming • Spring Boot • REST API development • React • SQL/MySQL • Full-stack application development • Deployment and software engineering fundamentals

CERTIFICATION & ACHIEVEMENTS

Certification details to be added.
